Registration Deadline: 10/22/2025

Contact Hours: 21 Water & Wastewater Hours

Location:

PA Water Specialties
180 Wharf Street
Pittston, PA 18640-1705

About the Class:

All Public water systems need to be concerned about backflow and cross-connection because all hydraulic systems are subject to pressure differentials that allow backflow to occur. Chapter 109.709 states that "At the direction of the Department, the public water supplier shall develop and implement a comprehensive control program for the elimination of existing cross-connection or the effective containment of sources of contamination, and prevention of future cross-connections." This course will train and recertify participants how to test and troubleshoot backflow prevention assemblies to ensure continued protection of their water supply.

This is also a conversion class. Completion of the ASSE Conversion Class will convert current Non-ASSE tests such as, NEWWA, BMI to ASSE Certification. You must have a current tester certification to attend. Please send a copy of your current NEWWA or BMI Certification with registration.

Instructor: PA Water Specialties Company

Registration / Cancellation Policy: REGISTRATIONS: The registration deadline above must be observed - NO EXCEPTIONS. To successfully register for this class, payment must be submitted at the time of registration. Any persons not paid in full by the registration deadline will not be registered for the class - NO EXCEPTIONS.
